

Meat Packing and Food Processing Chains

**RENOLD
JEFFREY**

- Smooth, quiet operation
- Long lasting, reliable performance
- Maintenance free

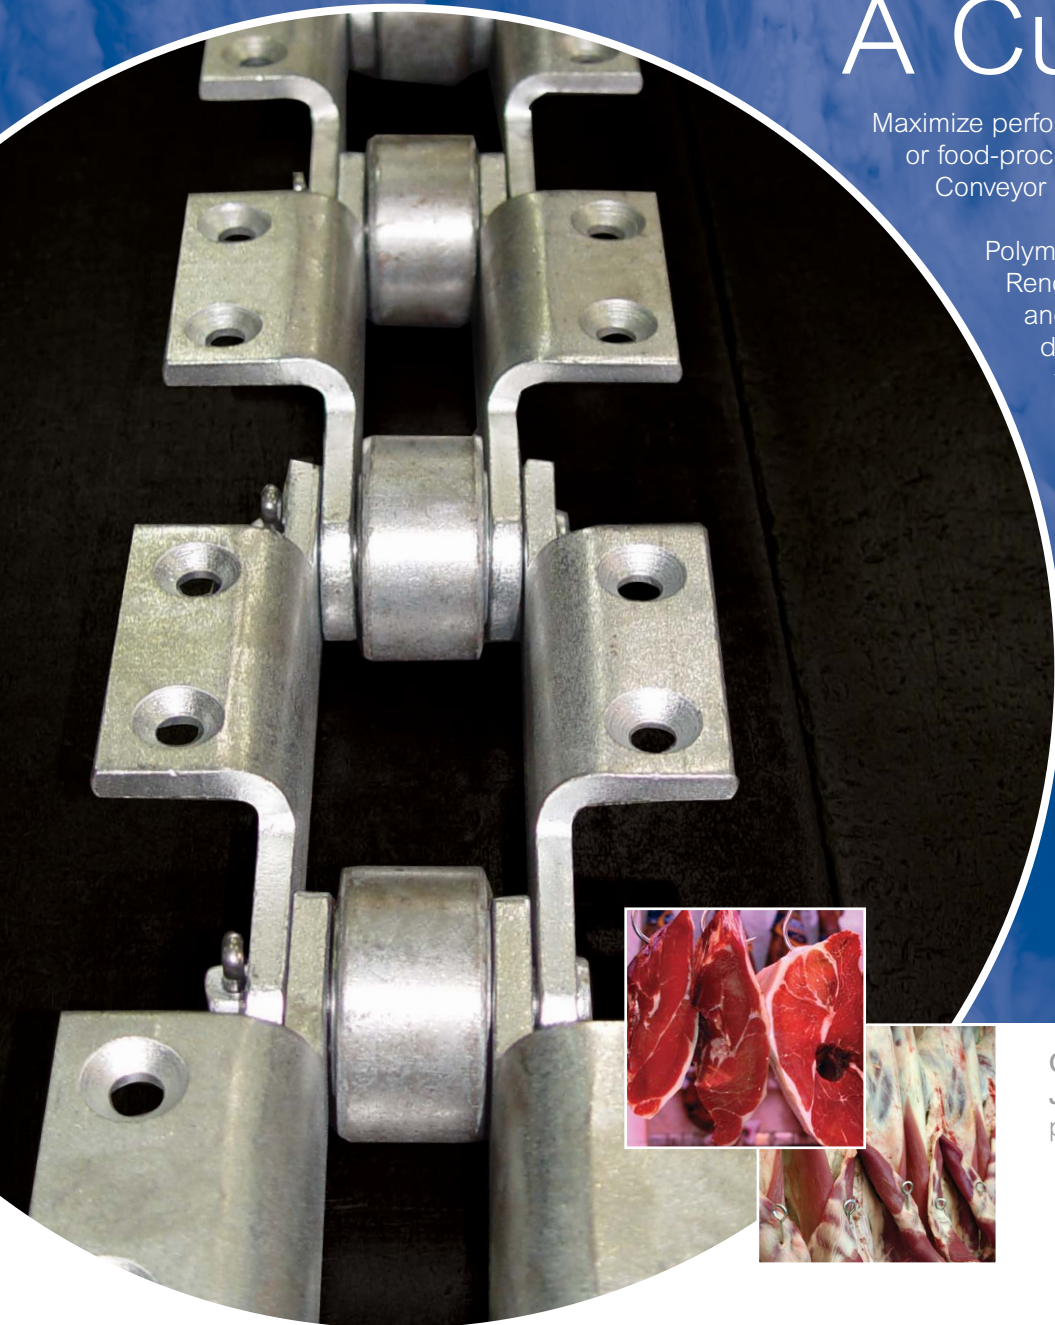

A Cut Above

Maximize performance of your meat packing or food-processing lines with Polymer Bushed Roller Conveyor Chains from Renold Jeffrey.

Polymer Bushed Roller Conveyor Chains from Renold Jeffrey are ideal for meat packing and food processing operations. These dependable chains are built to handle wet and washdown conditions. Polymer bushed rollers, stainless steel timbles, and plated sidebars, pins, and rollers resist corrosion and keep running. The polymer bushing material does not absorb water like some plastics, has very low friction characteristics, and will withstand hot water, steam, and detergents.

These reliable performers are furnished with K-type attachments and available in a wide range of standard and specialized materials. Lubrication is not necessary. Operation is consistent, smooth, and quiet.

Contact your local distributor or Renold Jeffrey to get the meat packing and food processing chains that are a cut above.

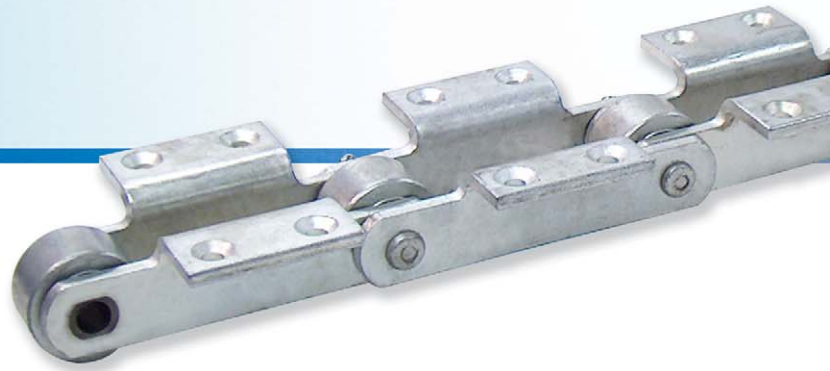

Meat Packing and Food Processing Chains

Polymer Bushed Roller Conveyor Chains

Made in America

- Available in carbon steel or stainless
- Smooth, quiet operation
- Long lasting, reliable performance
